ALICUDIBEIGESWIVELARMCHAIR

Welcoming and slender, this swivel armchair will suit any professional or residential context . The four-spoke swivel base in black-lacquered metal supports the seat, where a sleigh-like shell embraces the plush seat cushion and backrest enlivened by a softly conflicting grosgrain detail outlining the headrest. The beige-toned fabric upholstery combines a textured weft on the outside with a solid shade on the inside. Leather upholstery and tone-on-tone grosgrain are also available.
