

ARC DINING TABLE

As an ode to the Art Deco period, Arc is a transformation of lavish architectural details into a collection of minimalist furniture. Featuring a Console, Bench and Dining Table, the Arc collection is characterized by steps and arches, creating a certain depth and play of shadows. Arc Dining Table goes perfectly together with the Brutus Dining Chairs to create a brutalistic and architectural look.

Made from cast fiber concrete, the Arc Dining Table has a tactile stone-looking surface with small holes and colour variations. Due to the product is cast and afterwards hand painted, each product is unique.

Arc Dining Table comes in two pieces - table top and base, easily assembled with four screws hidden underneath the table top.
