Tommy Hyldahl

Chameleon Wall Lamp - Burned Black

Product Description

Chameleon Wall Lamp in Burned Black is inspired by the bold clarity of 1980s graphic minimalism, celebrating transformation through light and form. Defined by clean lines and geometric precision, the wall lamp blurs the boundary between illumination and sculpture, becoming an architectural element that both lights a space and defines it. The adjustable square shade allows light to shift with a simple turn, creating changing compositions of light and shadow that bring quiet drama.

Finished in Burned Black, a deep charcoal tone with a subtle warm undertone, the powder-coated aluminium surface adds depth and refinement as light moves across it. Elegant in its simplicity and versatile in expression, the Chameleon Wall Lamp adapts effortlessly to its surroundings, embodying the art of transformation through light.

Place the Chameleon Wall Lamp in Burned Black beside a bed, along a hallway, or as accent lighting in a living space. Its compact form and adjustable shade make it ideal both as a functional light source and as a sculptural statement, used individually or repeated to create a rhythmic wall composition.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Chameleon Wall Lamp - Burned Black

Family Description Text

Inspired by the bold clarity of 1980s graphic minimalism, the Chameleon Collection celebrates transformation through light and form. Defined by clean lines and geometric precision, each piece blurs the boundary between illumination and sculpture, becoming an object that both lights a space and defines it.

The adjustable square shade invites endless reinterpretation. With a simple turn, light and shadow shift in rhythm, reshaping the atmosphere with quiet drama. This intuitive movement transforms the Chameleon into a living element within any interior, responsive, expressive, and ever evolving.

Elegant in its simplicity and versatile in expression, the Chameleon adapts effortlessly to its surroundings, embodying the art of transformation through light.

Color Description

Burned Black is a deep, charcoal-black tone enriched with a subtle warm red undercurrent. Its matte powder-coated surface delivers a smooth, consistent appearance, while gentle tonal shifts emerge as light moves across it. Bold yet quietly warm, Burned Black brings depth, richness, and a refined architectural presence to any palette.

Chameleon Wall Lamp - Burned Black

Maintenance Guide Description

Our lights crafted in powder coated aluminium are designed to offer lasting durability and a refined, contemporary finish. To preserve their beauty and ensure long-lasting performance, regular and gentle care is essential. The powder coated aluminium should be dusted regularly with a soft, dry microfiber cloth, and for deeper cleaning, a slightly damp cloth with mild, pH-neutral soap may be used, wiping gently to avoid compromising the coating. Avoid abrasive pads, acidic or alkaline solutions, solvents, or metal polishes, as these can dull, scratch, or damage the surface. Always switch off and unplug the light before cleaning, and prevent exposure to excessive humidity or direct water contact to protect both the coating and the internal electrical components. With simple, consistent care, the powder coated aluminium will maintain its elegant finish, ensuring your light remains beautiful and timeless for years to come.

Materials Description

Powder-coated aluminium reflects the balance of strength and refinement. Each piece is coated with precision, resulting in a smooth and uniform surface that emphasizes form and silhouette with clarity. The finish enhances durability while introducing a calm, tactile character that enriches the material's expression.
