Tommy Hyldahl

Cube Candle Holders - Silver Travertine

Product Description

Cube Candle Holders in Silver Travertine are a quiet dialogue between geometry and emotion, inspired by the spirit of early Cubism, where simple forms reveal complex truths. Each holder distills the essence of structure into something deeply human and serene. The cube, equal on all sides and balanced in every dimension, stands at the heart of the design, serving as a meditation on harmony, proportion, and the stillness found in perfect balance.

Conceived as small architectural sculptures, the Cube Candle Holders interact with candlelight to create a gentle tension between rational form and poetic presence. The layered silver-grey, taupe, and soft earthy tones of Silver Travertine Earth bring depth, warmth, and timeless elegance to any interior, grounding your space with refined strength.

Place the Cube Candle Holders on a console, dining table, or mantelpiece, individually or grouped to create subtle rhythms of light and shadow. Their quiet geometry complements both modern and classic interiors, enhancing the sculptural presence of surrounding décor.

Warning: Never allow candles to burn closer than 3 cm (1.2 inches) from the surface of the stone. Direct and prolonged heat can cause discoloration, cracking, or thermal shock to natural stone.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Cube Candle Holders - Silver Travertine

Family Description Text

The Cube Collection is a quiet dialogue between geometry and emotion. Inspired by the spirit of early Cubism, where simple forms revealed complex truths, each piece distills the essence of structure into something deeply human and serene.

The cube, equal on all sides and balanced in every dimension, stands at the heart of the collection. More than a shape, it becomes a philosophy, a meditation on harmony, proportion, and the stillness found in perfect balance.

The candleholder is conceived as a small architectural sculpture, where light interacts with form to create a gentle tension between the rational and the poetic. It does not seek attention but presence, standing in quiet dialogue with its surroundings.

Color Description

Silver Travertine is a natural colour defined by layered tones of silver-grey, taupe, and soft earthy undertones. The interplay of these shades creates depth, warmth, and a sense of quiet strength. Timeless and versatile, this colour bridges ancient character with contemporary elegance, offering a grounded yet refined presence in any setting.

Cube Candle Holders - Silver Travertine

Maintenance Guide Description

Thank you for choosing the 101 Copenhagen Candleholder. This product is crafted from natural stone and is designed to bring timeless elegance to your space. As natural materials are sensitive to heat and staining, proper care is essential to preserve the beauty and integrity of your candleholder.

Important Usage Instructions:

To ensure safe use and prevent damage, please follow these guidelines:

- o□ Only use candles that fit securely and upright in the holder without forcing them into place.
- o□ Never allow candles to burn closer than 3cm (1.2 inches) from the surface of the stone. Direct and prolonged heat can cause discoloration, cracking, or thermal shock to natural stone.
- o□ Always extinguish the candle before it reaches this minimum distance.
- o□ Never leave a burning candle unattended. Keep away from children, pets, drafts, and flammable materials.
- o□ Use a candle snuffer to extinguish the flame rather than blowing it out, which can cause hot wax to splatter.
- o□ Allow wax to cool and harden fully before cleaning.
- o□ Gently remove wax using your fingers or a dry, soft cloth. If necessary, you may use warm water with a soft, non-abrasive cloth. Avoid acidic cleaners, bleach, or harsh chemicals, as these can stain or damage the natural stone.
- o□ Store your candleholder in a cool, dry place away from direct sunlight to prevent fading or thermal damage.

Warning: Fire & Breakage Hazard

Failure to follow the 3cm minimum burn distance may result in severe heat damage, including cracking, breakage, or complete failure of the candleholder. This creates a potential fire or injury risk and renders the product unusable. Damage caused by improper candle use is not covered under warranty.

Materials Description

From the heart of Iran, our Silver Travertine embodies quiet strength and subtle elegance. Its layered texture and silvery hues add depth and warmth to any setting, blending the ancient and the contemporary. Every stone in our collection is more than just a material it is a celebration of nature's artistry, human skill, and the beauty that comes with time.
