GALLERY BALLS

As the word indicates, Gallery Balls is all about curating objects in an artistic way. Gallery Balls come in three sizes and are made from ceramic with a chrome mirror finish. Reflecting their surroundings, Gallery Balls become a playful tool to decorate your interior.

Each ball beautifully captures and reflects light, creating dynamic visual effects. Whether arranged together as a striking centrepiece or dispersed throughout a room for subtle accents, Gallery Balls add a touch of modern elegance to any space.

Their versatile design complements a wide range of interior styles, from minimalist and contemporary to eclectic and traditional. Use them to elevate the aesthetic of a living room, bedroom, office, or place them in unexpected locations for a playful touch.

Designed by Kristian Sofus Hansen & Tommy Hyldahl.

Product no: 243030
