HIRO CHAIR

Named after the Japanese word for “generous,” Hiro embodies a sense of openness and ease. Its light, minimalistic construction invites a relaxed seating experience, while the cylindrical backrest doubles as a practical handle - allowing for effortless movement and versatility throughout the home. Balancing function and form, Hiro’s three-legged design draws inspiration from minimalist sculpture, transforming the chair into an artistic object in space. Whether placed around a dining table or used as a sculptural accent in a bedroom or hallway, Hiro adapts seamlessly to its surroundings.

Available in two distinct material expressions, the Hiro Chair pairs a matte black powder-coated steel frame with textured Linen upholstery for a grounded, architectural presence - or a polished stainless steel frame with smooth Italian Nubuck Leather for a lighter, more ethereal effect that makes the seat appear to float mid-air. Each combination is thoughtfully composed to highlight the chair’s clean silhouette and balanced proportions.

The cylindrical seat and backrest feature refined stitching details, offering a sculptural look with a soft, comfortable feel - bringing together craftsmanship and clarity in a single, generous form.
