Tommy Hyldahl

# Oka Tray - Marble

---

## Product Description

The Oka tray is inspired by traditional Japanese serving trays, often produced in wood or bamboo.

Transforming this well-known form into a new material, in this case marble developed in close collaboration with Indian suppliers to find the perfect, homogeneous stone, a certain heaviness and a refined texture of the surface is added, without compromising on the recognizable shape.

With its sculptural and architectural shape, it can be used for various decoration purposes or stand alone as a piece of art in its own right. As it is a natural product, the colours may vary a little.

## Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

## Oka Tray - Marble

---

### Family Description Text

The Oka tray carries a quiet echo of tradition, its form inspired by the serving trays that have accompanied Japanese rituals for centuries. These trays, once simple companions to daily life and ceremony, find new life in a shape that is both sculptural and serene.

Its silhouette speaks of balance and proportion, an architectural presence distilled into the gentlest of gestures. It holds space with grace, whether cradling the objects of everyday life, framing seasonal arrangements, or standing alone as an artwork in its own right.

The Oka tells a story of heritage carried forward, where past and present meet in harmony. It is an invitation to pause, to see beauty in simplicity, and to celebrate tradition reimagined.

### Color Description

Natural White Marble is an overall white stone, softly enriched with fine grey veining. Its luminous surface carries gentle variations that add depth and individuality without disturbing its calm, bright base. Elegant and timeless, this shade embodies purity and refinement, offering a versatile foundation for both modern and classic settings.

### Maintenance Guide Description

Marble is a natural stone whose beauty lies in its luminous surface and subtle variations. To preserve its elegance, clean regularly with a soft, damp cloth and mild, pH-neutral soap, then dry thoroughly to prevent water spots.

Because marble is porous, spills should be wiped immediately especially acidic liquids like wine, coffee, or citrus, which can stain or etch the surface. Avoid abrasive pads, harsh chemicals, or alkaline cleaners that may damage the polish or leave marks.

Protect the stone with coasters, placemats, or felt pads under objects, and avoid placing hot items directly on the surface. For long-term care, professional sealing is recommended to enhance resistance to stains while retaining the natural clarity of the marble.

With mindful handling, marble will maintain its timeless purity and elegance, aging gracefully with use.

### Materials Description

White marble has been cherished for centuries for its purity, elegance, and enduring strength. Formed over millennia, it carries subtle variations in veining and tone, making each piece a singular expression of nature's artistry. Its luminous surface reflects light with quiet clarity, adding both depth and refinement to any setting.

Cool to the touch and naturally resilient, white marble embodies a timeless character that bridges the ancient and the contemporary. More than just a material, it is a celebration of geology, craftsmanship, and the beauty revealed through time.
