

SCULPT STOOL

Sculpt Stool is inspired by the Brutalist architecture movement that emerged in the 1950s. True to the concrete building components and simplified block-like structures, the stool comes in a fiber concrete version cast in lightweight fiber concrete and hand-painted. The fiber concrete version highlights the stool's architectural inspiration with its unique, hand-painted texture.

Sculpt Stool is also available in a luxurious off white Bouclé. The Bouclé fabric adds a cozy, inviting touch with its soft and tactile surface, perfectly complementing the robust design with a hint of modern elegance. For increased comfort, the accompanying Sculpt Cushion can be purchased separately, providing an additional layer of softness to the fiber concrete stool.

Designed by Kristian Sofus Hansen & Tommy Hyldahl.

Product no: 111155

Type: Stool

Designer / Year of design:
Kristian Sofus Hansen & Tommy Hyldahl, 2017

Colour: Grey
Material: Concrete

Care instructions:
Use a soft dry cloth to clean the product.
Do not use household cleaners.
Not frost-proof

Dimensions: L50 / W45 / H47 CM
Weight capacity: 120 Kgs

Country of origin: CN
Product weight: 18 Kgs

Packaging:
Dimensions: L51 / W53 / H56 CM
Total weight incl. product: 19,50 Kgs
Number of parcels: 1
Material: Brown cardboard
