

SUNAO PLANT POT MEDIO

Sunao, a Japanese word meaning honesty, reflects the quiet beauty of simplicity. Each plant pot is shaped with a timeless elegance that allows nature to take centre stage, whether cradling a delicate herb on a kitchen windowsill or anchoring a lush statement plant in the garden.

The collection unfolds in two surface expressions. The first is a smooth fibre concrete finish, offering a refined clarity that complements interiors defined by calm and balance. The second is the Beehive texture, a living dialogue with nature. Cast from shellfish found along the shoreline, its organic surface invites touch and celebrates the raw poetry of the natural world. Durable and weather-resistant, these fibre concrete plant pots are designed for both indoor and outdoor living, allowing greenery to thrive seamlessly across spaces.

Every plant pot is hand-glazed to achieve a soft, matte finish, carrying subtle, one-of-a-kind variations that stand as hallmarks of true craftsmanship. Inside, a waterproof glaze ensures functionality, allowing roots to rest in harmony with their vessel while supporting the vibrant growth of the plant.

Designed by Kristian Sofus Hansen & Tommy Hyldahl

Product no: 252012

Type: Plant pot - Indoor / Outdoor

Designer / Year of design:

Kristian Sofus Hansen & Tommy Hyldahl, 2024

Colour: Black

Material: Ceramic

Care instructions:

Use a soft dry cloth to clean the product.

Do not use household cleaners.

Waterproof

Dimensions: L32,5 / W32,5 / H34 CM

Country of origin: CN

Product weight: 4 Kgs

Packaging:

Dimensions: L41,5 / W41 / H42,5 CM

Total weight incl. product: 5 Kgs

Number of parcels: 1

Material: Brown cardboard
